

ENVIRONMENTAL MESSAGING TO OHIO PROPANE CONSUMERS REBATE APPLICATION **\$750 REBATE PER PLANT**

This rebate is designed to reimburse a propane dealer for some expenses associated with sharing information with their customers to educate Ohio propane customers and help them understand that propane plays a significant role in decarbonization as a clean energy source. Marketers that choose to participate will purchase the environmental messaging materials they need, have them shipped to their plants, and submit a receipt or proof of purchase to the OPGA. OPGA staff will then reimburse up to \$750 per plant (up to \$3000) to the marketer. Please note, the reimbursement amount will not exceed the amount spent by the propane dealer.

Rebate Preapproval No.

To ensure a consistent message is being sent to propane customers across the state, the following materials produced by PERC will be eligible for this rebate:
